Amsterdam housing prices

A tool to predict real estate worth

RINZE DOUMA

Ironhack Data Analytics 2020

An overview

WHAT'S GOING ON?

Asking prices for real estate in Amsterdam are going through the roof

WHY ACT NOW?

People bid 10% over asking price without seeing the property

WHERE IS ALL THE FUN?

Main website for listings used in the Netherlands is www.funda.nl

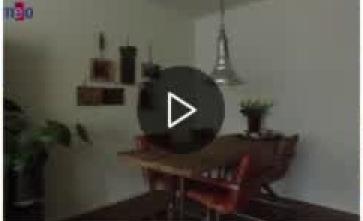

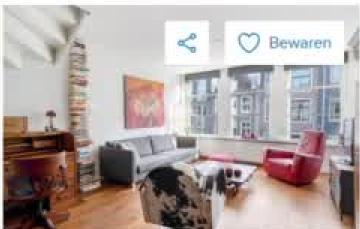

Home > Amsterdam > Haarlemmerbuurt > Haarlemmerdijk 107 C

Plattegrond 2

Haarlemmerdijk 107 C

1013 KD Amsterdam

☐ 84 m² wonen
☐ 2 slaapkamers

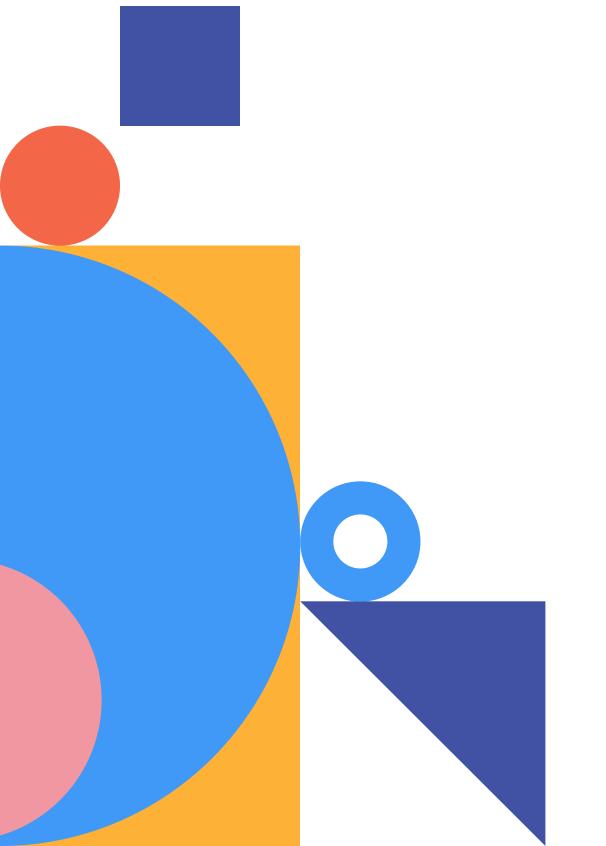

Kaart

Omschrijving

De Haarlemmerdijk 107 C zorgt voor veel woonplezier door de praktische indeling, de goede afwerking en de ligging in een rijksmonument in een van de leukste winkelstraten van Amsterdam. Ruim en licht dubbel bovenhuis van 84 m2 met een heerlijk privé dakterras van 23 m2. Deze bijzondere 3-kamerwoning, gelegen op de bovenste twee woonverdiepingen, is voorzien van een rustieke keuken, niedem sanitair en mooie oude

Hypothesis

What are we trying to do?

"The asking price of real estate can be predicted by the characteristics of the listing."

Workmethod

PHASE 1 - FIND

Webscrape thousands of listings of property, both on sale and sold

PHASE 2 - CLEAN

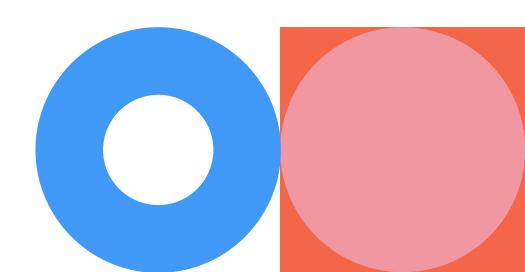

Spend many hours getting the data in shape

PHASE 3 - PROCESS

Analyze trends and remove outliers

PHASE 4 - PREDICT

Train supervised machine learning model (linear regression)

Main correlating factors

Correlation with asking price

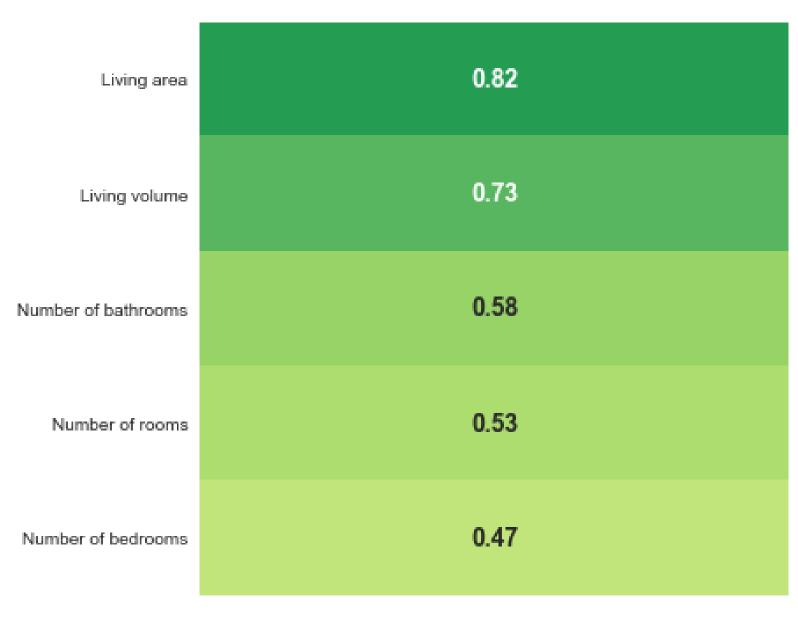

LOCATION

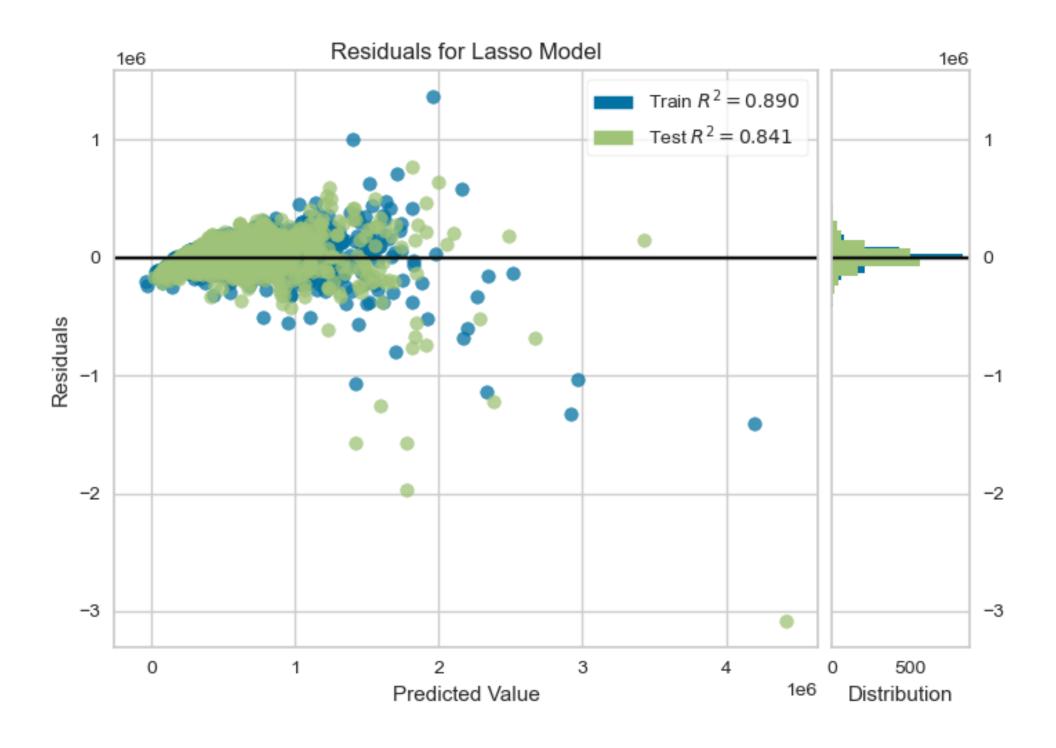

PROPERTY SIZE

PRICE

Statistics

a geeky extra

Total listings used: 8000+

Mean absolute error: € 51950

R2 score for test set: 0.841
